

# WHY TEST FOR COLON CANCER

## YOU ARE AT RISK

- Everyone is at risk for colon cancer.
- Your chance of getting colon cancer goes up as you get older.
- If other family members have had colon polyps or colon cancer, you are at increased risk.
- If you have inflammatory bowel disease, Crohn's disease, or ulcerative colitis, you are at increased risk.

## NO EXCUSES

- Fear of Costs?  
**A low cost option is a stool based test.**
- Transportation Issue?  
**There is a screening option that can be done at home.**
- Bowel Preparation Concern?  
**Stool based tests do not need bowel preparation.**  
**Bowel preparation for colonoscopy is easier than before.**
- Are You Scared?  
**Regular testing saves lives!**
- What else is preventing you from getting tested?  
**Let us know so we can help you.**

**Talk to your provider today about colon cancer screening**

**Testing is not so bad. Really! Do it for yourself. Do it for your family.**

**You are worth it.**
